SUMMARY

Performance creatives, AI automation, and systematic production — 7+ years in design (since Mar 2019), 7+ years in motion. Quarterly output at 200% of team KPI.

Lead Motion Designer focused on performance creatives for mobile games: creative strategy and full ownership of 3 titles, AI-assisted production (Claude !” Magnific), AE scripting, and UA-ready delivery. Quarterly creative output consistently at 200% of team KPI (200 vs 100 target).

ABOUT

Lead Motion Designer

I am a Lead Motion Designer with a strong focus on performance creatives, AI automation, and a systematic approach to production. My strength lies not only in creating visually engaging creatives, but also in building processes that help the team test ideas faster, scale successful solutions, and deliver assets to the UA team without unnecessary chaos.

I work professionally in After Effects: creating animations, game creatives for 10+ casual games, gameplay videos, playable-oriented assets, test variations, and full-cycle motion production. At the same time, I do not limit myself to working from ready-made scripts — I actively participate in developing ideas, mechanics, and strategies, proposing new hypotheses that help the team find effective creative approaches.

A separate part of my work is production process automation. I create AE scripts, pipelines, and internal production tools that speed up creative production, automate the generation of game scenes and gameplay materials, and simplify organizational processes such as asset preparation, assembly, versioning, and delivery to the UA team.

EXPERIENCE

Motion design at Appodeal & APPSULOVE · graphic design foundation since March 2019.

Industry since March 2019. Motion focus: Appodeal 2 yrs · APPSULOVE 3 yrs 10 mos.

Appodeal &— Lead Motion Designer

Oct 2026 — Present (2 mos) · Remote

- Full ownership of 3 game titles: creative strategy, production, briefs for agencies, feedback rounds, creative sets for AppLovin, handoff to the UA team
- Competitor analysis and performance analysis of our creatives’ campaigns
- Game-level creative strategy built on analysis results

- Tracking UA metrics and steering creative direction based on data

Appodeal &— Senior Motion Designer

Dec 2024 — Sep 2026 (1 yr 10 mos) · Remote

- Performance game creatives, gameplay video, playables, test variations
- Creating assets from scratch for performance creatives
- Creative strategy development, brainstorm participation, and hypothesis shaping
- Quarterly KPI: 100 creatives — consistently deliver ~200 (200% of target)
- Top performance creatives: 150% of KPI (50% over target)
- IPM 6+ · eROAS 150%+ · CPI <$1.5 · RR D7 20%+ · CTR 5%+
- AE scripting, pipelines, AI workflow, UA-ready handoff

APPSULOVE &— 2D Motion Designer (Freelance)

Mar 2021 — Dec 2024 (3 yrs 10 mos) · Minsk, Belarus

- 2D animation, character animation, banner creation

EasyLoot — Graphic Designer (Part-time)

Jun 2020 — Nov 2024 (4 yrs 6 mos) · Minsk, Belarus

AdsProfit — Creative Designer (Part-time)

Apr 2020 — Jun 2021 (1 yr 3 mos) · Remote

- Video creatives for merchandise, goods, gambling verticals

Vortex — Graphic Designer !' Lead Designer

Mar 2019 — Dec 2021 (2 yrs 9 mos) · Minsk, Belarus

- Internet marketing agency, graphic and lead design

RESULTS

Performance & volume

Team KPI is 100 creatives per quarter. I consistently deliver ~200 — 200% of the target.

200% 200 creatives / 100 quarterly KPI

IPM 6+ · eROAS 150%+ · CPI <$1.5 · RR D7 20%+ · CTR 5%+

Metrics from UA dashboards — top performance creative benchmark.

APPROACH

I don't limit myself to ready-made scripts — I help shape ideas, mechanics, and strategies.

Creative ideation

I actively participate in developing ideas, mechanics, and strategies — proposing new hypotheses that help the team find effective creative approaches.

Test variations

In After Effects I create animations, game creatives for 10+ casual games, gameplay videos, playable-oriented assets, and test variations for rapid iteration.

Product hypotheses

Motion design as part of product growth — through testing, analytics, speed, and a constant search for new solutions.

AUTOMATION

Production at scale

AE scripts, pipelines, and internal tools that speed up creative production and simplify delivery to UA.

- Asset prep: Organized sources, comps, and templates ready for fast assembly.
- Assembly: Automated scene generation and gameplay material builds.
- Versioning: Clear naming, variants, and export presets for every test.
- UA delivery: Structured handoff so the UA team gets assets without friction.

AI WORKFLOW

Node-based workflows in Magnific, model selection, and prompt engineering — plus Claude !” Magnific and Cursor automations.

For me, AI is not a replacement for creativity, but a way to test ideas faster, reduce routine work, and leave more time for strong concepts, motion, emotion, and results.

STACK

Motion & video

After Effects (professional), Premiere Pro & video editors (proficient)

Design

Photoshop (professional, incl. AI features), Illustrator, Figma, Blender

Production & AI

AE scripting, pipelines, Magnific (nodes, Spaces), Claude !” Magnific automation, Higgsfield, prompt engineering, Cursor & Claude, n8n

Collaboration tools

Google Sheets, Miro, UA dashboards, Jira, GitHub

EDUCATION & COURSES

Belarusian State University — Marketing in e-commerce

Sep 2016 — Jul 2020

UGC Ninja — Creative automation with n8n

Professional course

TEAM

Creative department: Creative Director, Creative Producer, Lead Motion Designer (me).
